REQUEST YOUR PV GREENCARD TODAY

Considering a Solar PV system but don't know where to start?

Reduce your risk by requesting a PV GreenCard installation, which ensures high quality and safe installations. The PV GreenCard is an industry led quality mechanism and provides full documentation of the system installed and a declaration by the installer.

Check out the www.pvgreencard.co.za website for the latest information on rooftop Solar PV installations and SAPVIA's recommendations on competent, compliant, qualified and accredited installers.

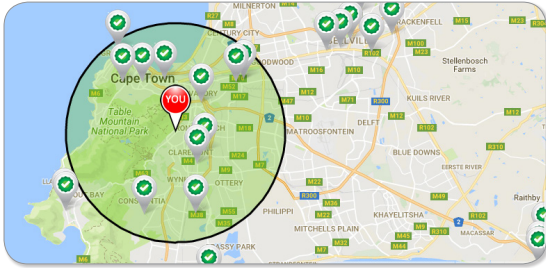

The benefits of having a PV GreenCard installation

- Choosing an **industry accredited Installer** of your choice gives you **access to only the best qualified Installers in South Africa** – our geolocation tool allows you to find multiple installers in your area.
- The PV GreenCard provides **complete information regarding your system components and installation practises** – our carefully designed checklists ensures high quality components and safe installations.
- Compliant installation **reduces the risk** thereby attracting better insurance and finance/loans rates.
- **Protect yourself** from fly-by-night installation companies by having the option of an **exclusive third-party check** of the installed system should, your system not perform as expected.
