

PVGreenCard

Promoting safe quality Solar PV installations

PV GreenCard Solar PV Installer Training Provider Requirement

To ensure consistency in the delivery of this training, it is expected that any training provider wanting to offer the SAPVIA Solar PV Installer Training should have the following as a minimum to offer this Solar PV Installer training course

- A suitable qualified training facilitator
- Access to an adequate training facility
- The facility should include specified equipment (please see equipment list and setup for further details) and a classroom with audio-visual equipment
